PRIMARY EXAMINER

**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on January 7, 2007 has been entered and claim 6 has been cancelled.

***Response to Arguments***

2. After entering amended claims 1 and 3 and canceling claim 6, the objection of claims 1 and 3 and/or the drawings are in order.

***Allowable Subject Matter***

3. Claims 1-5 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a liquid crystal display device comprising, inter alia, a supporting column extending from an upper substrate to a lower substrate and having an outer surface inclined relative to the lower substrate at a first angle relative to the lower substrate; and a contact part having an interior surface that is inclined with respect to the lower substrate at a second angle relative the lower substrate, the second angle being different than the first angle. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to yield or manufacture the device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
